Board of Trustees,

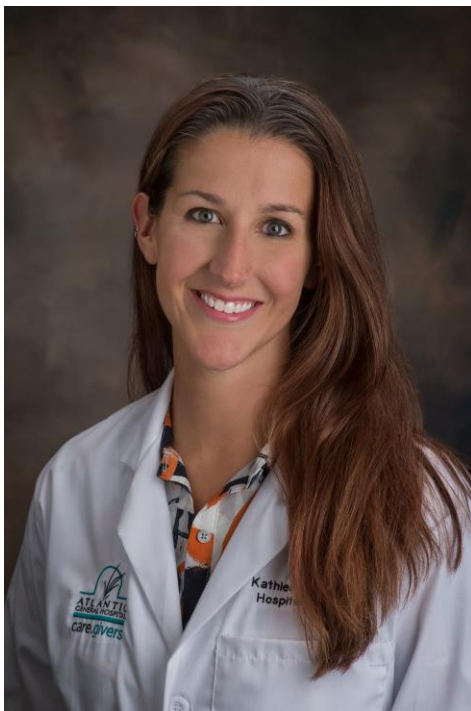

Please accept this letter as my intent to continue my position as the Maryland trustee for the Pennsylvania Osteopathic Family Physician Society. I have served in this position since 2016. While doing so, I have also served on the membership committee task force, 60th anniversary and public policy committees, and newly on the finance committee within POFPS.

I believe I have demonstrated commitment and energy to the organization throughout the years. I am also involved within the American College of Osteopathic Family Physicians, and believe that this connection is an asset as we continue to strive to maintain our osteopathic distinctiveness. Should my term be renewed, I intend to focus and increase membership with my Maryland constituents.

I have greatly enjoyed my time within POFPS and am excited for the opportunity to continue to grow and learn within the organization.

Thank you for your consideration,

Kathleen M. Henley
