

Dear Jason Leeper, and the Board of Trustees,

Please let this email serve as my request for reappointment as the Maryland representative for the board of trustees for the Pennsylvania Osteopathic Family Physicians Society (POFPS).

I have been serving in this position since 2016 and have enjoyed my time there. I have learned a great deal about organizational medicine, and believe I have contributed to the organization as well. I have served on the 50th anniversary party planning committee, finance committee and the membership focus group. Most recently I have served as the co-chair for the membership committee with Dr. Henwood, and through that, a subcommittee for the mentorship program, which is in the middle of its inaugural year. I continue to be an active member of both POFPS and the American College of Osteopathic Family Physicians, serving as a delegate yearly.

Thank you for your consideration, and if I can be of further assistance please do not hesitate to ask.

Respectfully,

Kathleen Henley
