

To The POFPS Board of Directors,

I would like to submit my interest in becoming a trustee of the board. I have had the privilege of growing up in Pennsylvania, completing my residency in Pennsylvania and four years as a faculty member at my residency program. I have been the Director of Osteopathic Medicine.

Until recently I was happy being a member of Osteopathic Medical Societies but in the last year I have realized even more how important Osteopathic Medicine is to me as a profession. I was lucky enough to receive an email requesting more alternate delegates for this years ACOFP and loved the experience and watching policy in action. It was an experience that I hope to continue to have.

I have experience in being members of Alumni Boards and Synagogue Boards. Being core faculty, I have worked collaboratively with many different groups and committees. I have worked with college students looking to make medicine their careers, medical students deciding on family medicine and residents attempting to decide on what their careers will look like.

I hope you will consider me for a member of your board.

Thank you,

Susan R Medalie

Susan R Medalie, D.O.
