POMA’s core values are comprised of Transparency, Accountability, Collaboration and Trust, Innovation and Creativity, and Servant Leadership as defined below.

Transparency is honesty and openness, particularly in the area of governance;

Accountability is the act of accepting responsibility and the obligation of an organization or individual to account for one’s actions. It is often linked to transparency.

Collaboration and Trust are dominant theme and highly valued within the association community and the health care delivery system. Both are viewed as critical component in producing successful outcomes.

Innovation and Creativity are central to POMA and their presence ensures receptivity to solutions and a willingness to take risks and actively pursue continuous improvement.

Servant Leadership is a leadership philosophy and set of leadership practices that focuses on serving others, places the success of the whole over individual success and emphasizes listening, empathy, and follows a belief that people can accomplish much when inspired by a purpose beyond themselves.

The selection process will be driven by the goal of selecting those individuals who can have immediate impact and make a sustained contribution to the work effort. Individuals are strongly encouraged to
