2 ~~Statement of Purpose~~

3 -
4 ~~The purpose of the Continuing Medical Education Program (CME) of the American Osteopathic Association (AOA) is~~
5 ~~to maintain and increase the medical knowledge and skills of the osteopathic physician. The ultimate goals of continuing~~
6 ~~medical education are continued excellence of patient care and improving the health and well-being of the individual~~
7 ~~patient and the public.~~

8 -
9 ~~The American Osteopathic Association’s mandatory program of continuing medical education is designed to encourage~~
10 ~~and assist osteopathic physicians in achieving these objectives and goals.~~

11 -
12 ~~The AOA’s CME program is implemented by granting credits to osteopathic physicians for participation in approved~~
13 ~~CME activities sponsored by recognized organizations, institutions and agencies. Specifically excluded from granting~~
14 ~~credit are educational programs that lead to formal advanced degrees within the profession; these include pre-doctoral~~
15 ~~courses in colleges of osteopathic medicine, internships, residencies and fellowships.~~

16 -
17 ~~Accredited educational activities may be formal or informal, full time or part time activities, which may include, but are~~
18 ~~not limited to, scientific seminars, workshops, refresher and postgraduate courses, lectures, home study, and local, state,~~
19 ~~regional and national medical meetings. The American Osteopathic Association grants CME credits to osteopathic~~
20 ~~physicians for their participation in educational activities that meet specific criteria.~~

21 -
22 ~~For a more detailed description of the various types of osteopathic CME credits, and the criteria allocated to each type of~~
23 ~~credit, please refer to this “AOA CME Guide for Osteopathic Physicians.”~~

1 -
2 Members who obtain one hundred and fifty (150) credits or more of AOA approved applicable CME credit in a three-
3 year CME cycle will be given a certificate of excellence in CME. These hours must be earned by December 31ST, but

1 reported no later than May 31, following the close of the current CME cycle.

2
3 AOA recognizes that members holding specialty or subspecialty certificates in specialties with less than three hundred
4 (300) certificate holders may have difficulty accruing the required number of AOA 1-A credits for maintenance of
5 membership. In such cases, members may apply AMA PR/4 Category 1 Credit™ or AAFP category 1 credits to their AOA
6 1-A credit requirement up to the maximum of 15 CME credits per cycle to meet the Category 1-A credit requirement for
7 membership. To qualify for AOA Category 1-A CME credit under this policy the following criteria must be met:

- 8 -
9 1. Osteopathic physicians must be a member of the AOA
10 2. Physicians must be AOA and/or ABMS certified
11 3. The specialty/subspecialty must be listed as a qualifying specialty

12
13 A list of specialties and subspecialties with less than 300 certified members is available at www.osteopathic.org.

14 -
15 To request eligibility in this program, physicians should contact their certifying board. Specialty colleges may petition the
16 Council on Continuing Medical Education (CCME) to have members exempted from the current policy if that specialty
17 college feels that sufficient CME is available in the specialty or subspecialty listed for exemption. To do this, specialty
18 affiliates must submit a detailed list of courses which provide CME that meets the needs of the specialty or subspecialty
19 physicians.

20 -
21 Note: This exemption only applies to the thirty (30) Categories 1-A CME credits required for membership in the AOA.

22 -
23 The acceptance of ACCME accredited provider for AMA PR/4 Category 1 Credit™, AAFP, or credits from any other
24 certifying body by the CCME in order fulfill AOA CME requirement does not convert said credits to AOA credits.

25 26 Types of CME Credit

27
28 The AOA assigns CME credit to four categories: 1-A, 1-B, 2-A, and 2-B. IN VERY GENERAL TERMS,
29 CATEGORY 1 IS TYPICALLY OSTEOPATHIC CME; AND CATEGORY 2 DENOTES ALLOPATHIC CME.
30 AND CATEGORY A IS USUALLY LIVE ACTIVITIES, AND CATEGORY B IS NOT (WITH A FEW
31 EXCEPTIONS).

VI. Non-Qualified QUALIFYING Activities

A. Volunteer Work

The AOA applauds volunteer work, but such work does not qualify for CME credit.

~~**B. Post Graduate Studies**~~

~~Studies undertaken in the quest for advanced degrees, whether Master of Science, Master of Public Health, Master of Business Administration, or Doctorate studies of any kind, do not qualify for CME credit.~~

~~**B. Medical Facility Tours**~~

~~Such tours do not qualify for CME credit.~~

VII. CME Requirements for Certified Physicians

~~A. AOA Board-Certified Physicians~~

~~1. Physicians who are board certified are required to earn a minimum of fifty (50) CME credits within their specialty in each three-year CME cycle. These credits may be earned in Category 1 or Category 2 according to the requirements established by the AOA Bureau of Osteopathic Specialists (BOS). (Please see Certifying Board for clarification.)~~

~~2. Certifications of Added Qualification Subspecialty. For osteopathic physicians holding certification(s) of added qualification (CAQs), a minimum of 25% of the credits (13 credits) must be earned at the level of the CAQ. At least 30% of the specialty CME credits (15 credits) must be earned in the primary certification.~~

~~3. CME sponsored by osteopathic specialty affiliates in the individual's declared specialty, will be applied to this requirement on an unlimited hour-by-hour basis.~~

~~B. ABMS Board-Certified Physicians~~

1
2 -
3 1. Physicians who are both AOA and ABMS board certified are required to earn the same specialty CME credit hours as
4 DOs who are AOA board certified only in order to meet AOA specialty requirements.—

5
6 2. Physicians who are solely certified in an ABMS specialty are required to obtain a minimum of ten (10) Category 1-A
7 credits in AOA sponsored CME programs during each three year CME cycle in order to meet AOA specialty
8 requirements.—

9
10 3. Physicians who are solely certified through the ABMS must meet the 120 hour AOA membership requirement.—

11
12 Please contact the certifying board for information regarding the use of preceptoring or other credits towards this
13 requirement. Osteopathic Physicians may refer to www.osteopathic.org for additional information regarding the “AOA
14 Specialty Continuing Education (CME) Policy” regarding specialty CME program requirements.—

15 -
16 Note: Under current AOA policy, failure to meet the AOA specialty CME requirement is interpreted as a failure to meet
17 the individual physician's CME requirement. This could result in the loss of AOA membership and in turn result in the
18 possible loss of certification.—

19 **VIII. Exemptions/Reductions-**

20 **~~A. General-~~**

21 AOA members exempted from the CME program requirements include: (1) retired physicians no longer holding an
22 active license to practice medicine; (2) physician residing outside the geographic boundaries of the United States and
23 Canada; (3) students; interns; residents and academic fellows participating in AOA recognized or ACGME accredited
24 postgraduate programs; (4) physicians serving in the military and assigned to positions other than in his or her specialty
25 or those physicians on active duty who are involved in significant military operations; and (5) physicians who have
26 received disabled status.—

27 -
28 ~~AOA Life Members in active practice are not exempted from the CME requirement.—~~

29 **~~B. Osteopathic Physicians in the Military: Reductions/Waivers-~~**

30 The Council on CME is aware of the difficulty osteopathic physicians in the military, Veterans Administration, and U.S.
31 Public Health Service may have in acquiring osteopathic continuing medical education. The Uniformed Services
32 encourages osteopathic physicians to fulfill his or her obligation to CME and the AOA believes it is essential that an
33 osteopathic physician obtain a portion of this education in osteopathic sponsored programs. Therefore, AOA required
34 physicians on active duty to obtain a minimum of five (5) CME credits per year, or fifteen (15) of the thirty (30) required
35 Category 1-A hours per three year cycle, be received in osteopathic venues. This reduction is available only to those
36 physicians on active duty who have accumulated a total of one hundred and twenty credits (120) hours of CME and who
37 request said reduction from the Council on CME. The total CME requirement will be proportionally adjusted for time
38 spent out of the United States.—

39 -
40 Osteopathic physicians serving in the uniformed services, who are engaged in active military operations, may be granted
41 a waiver of his or her AOA CME requirement for membership if that physician is CME deficient at the end of the
42 current CME cycle.—

43 -
44 Any osteopathic physician, other than career military personnel, who is called to active duty, emergency need duty,
45 military operation, or placed on stand-by, and is CME deficient at the end of a CME cycle, may request to have his or
46 her CME requirement waived or reduced.—

47 - 48 **~~C. Extenuating Circumstances-~~**

49 In the event that a physician is prevented from obtaining sufficient credit, e.g., serious illness, financial, or family
50 problems, he/she is urged to report this to the AOA Council on Continuing Medical Education and the AOA, as they
51 may qualify for a reduction in the requirements. Changes in a physician's practice status at the beginning of the CME
52 cycle may reduce his or her AOA CME requirement. For additional information on extenuating circumstances, please
53 contact the AOA Department of Client and Member Services at (888) 62 MYAOA (888 626 9262).—

1 -
2 AOA exemptions or reductions in the number of required credits, for membership or certification, do not affect
3 individual state CME licensing requirements. The Council on CME will grant no reductions of CME credit hours
4 without due cause unless policy advises otherwise.

5 -
6 **~~IX. Failure to meet the AOA CME Requirement—End of CME Cycle~~**

7 Beginning with the CME cycle which ended December 31, 2015, AOA members will have five (5) months following the
8 close of a cycle to fulfill his/her CME requirements. If there are any questions about this policy, contact the AOA
9 Department of Client and Member Services at crc@osteopathic.org.

10 Note: Under current AOA policy, failure to meet the AOA specialty CME requirement is interpreted as a failure to meet
11 the individual physician's CME requirement. This could result in the loss of AOA membership and in turn result in the
12 possible loss of certification.

13
14 **~~X.—Reporting CME Activities~~**

15 REPORTING OF OSTEOPATHIC CME CREDIT IS THE RESPONSIBILITY OF THE ACCREDITED AOA
16 CATEGORY 1 SPONSOR. CREDITS SUBMITTED BY A PHYSICIAN FOR SUCH ACTIVITIES WILL NOT BE

24 OF HOURS ATTENDED. TRANSCRIPTS FROM OTHER INSTITUTIONS (HOSPITALS, CME TRACKERS,
25 ETC.) WILL ALSO BE ACCEPTED IF IT CONTAINS THE TOTAL NUMBER OF HOURS.

26
27 ALL SUBMISSIONS SHOULD INCLUDE THE PHYSICIAN'S NAME AND AOA ID NUMBER. WHERE
28 APPLICABLE, PLEASE INDICATE IF THE CME PROGRAM WAS SPECIALTY SPECIFIC AND WHAT THE
29 RELEVANT SPECIALTY/SUBSPECIALTY IS.

31 attendance must be provided to the AOA Department of Client and Member Services at crc@osteopathic.org indicating
